

URGE EQUABLE TARIFF IN NEW ORLEANS CONGRESS

Representatives of Southern Industries Present at Session. Harding Sends Letter.

(By Associated Press.)
NEW ORLEANS, La., Oct. 11.—Governors, United States Senators, Congressmen, Representatives of leading industries of the South and a candidate for the presidency of the United States, advocated an equable protective tariff at the opening session here today of the Southern Tariff Congress.

Expectations tonight were that efforts would be made tomorrow to remove the geographical restrictions on American tariff congress along the lines of the one now in session.

Senator A. B. Fall, of New Mexico, in his address expressed his confidence in the ultimate merging of Northwestern and Western interests in the movement. He declared himself strongly in favor of an equable tariff and urged the necessity of cutting party and boundary lines.

Senators Joseph E. Randlell and Edward J. Gay with Senator-Nominee Edwin E. Broussard, of Louisiana, stressed the need of protection.

John M. Parker, Governor of Louisiana, declared the future salvation of the country to proper protection of its producers. "Unless this is protected," he said, "the high cost of living will be run up by foreign manufacturers until the United States are thrown into Bolshevism and anarchy."

John H. Kirby, president of the congress, protested against discrimination.

Senator Warren G. Harding congratulated the congress on its purposes.

The congress will continue through tomorrow.

Comptroller of Currency Shows Public Absorbing Federal Securities Rapidly.

(By Associated Press.)
WASHINGTON, Oct. 11.—Constant reduction of the amount of Liberty bonds held by national banks was reported tonight by John Skelton Williams, Comptroller of the Currency. Records of the banks show an encouraging absorption of such securities by the investing public, the statement said.

National banks held on June 30 Liberty bonds and Victory notes equal to only about 3½ per cent of their total resources, Mr. Williams said. In that date national banks owned \$77,681,000 of such securities, while their resources aggregated more than \$22,000,000,000.

The aggregate of Liberty bonds held by the national banks June 30 as collateral amounted to \$225,561,000, while six months previously they had held more than \$269,000,000, according to the statement.

BEYOND BELIEF IS THE HELP HE HAD

A Strong Testimonial Given by Popular Virginia Lady for Plant Juice.

HUSBAND HAD SUFFERED

He Can Now Eat His Food Without Distress; Sleeps Fine and Has No More Pain.

There is a modern remedy that is magical in its effect and that is Plant Juice, the new herbal stomach medicine. It rectifies the wrong done to the body by getting at the root of the trouble. It feeds the nerve tendons vigor and vitality, and they, in turn, feed the different functional organs this same strength. It does its work quietly and thoroughly and gives permanent relief.

Thousands have testified to this truth. One of the latest signed testimonials of local people is that of Mrs. John Wallace, a well known and popular Portsmouth lady, residing at No. 11 Channing Avenue, who tells how her husband was relieved of a severe case of stomach trouble by Plant Juice. She says:

"For years my husband has been a sufferer from stomach trouble and had tried all kinds of medicine and every other treatment, but did not get any better. He had no appetite whatever and his stomach was so weak that he had to exist on bread and milk; his kidneys bothered him a great deal and he had terrible pains in his back; he was so weak that times he would have to sit down and could not go out in the sun; he finally got so bad that he was obliged to give up his work and he felt awfully discouraged and blue; he could rarely get a good night's sleep. A friend of ours advised my husband to try Plant Juice and we had read of the number of our home people who had been cured by Plant Juice. We are glad that we heard of it, for after taking it for several weeks the results have been wonderful beyond belief; my husband can now eat anything, has no more trouble with his kidneys and sleeps like a child; he has no more pain and it is perfectly wonderful how Plant Juice has brought him back to health when he thought there was absolutely no hope. He is able to work every day and says that Plant Juice has made a new man of him—completely cured him. We are glad to have this opportunity to let the public know what Plant Juice did for my husband."

Plant Juice is sold in Richmond at Tragle's Drug Store.

Plant Juice is sold in Petersburg by Morrison, the Drug Man, and in Chesapeake City by the Chase City Drug Company. Adv.

RAILROADS APPEAL TO WILSON AGAINST RULING

Say Comptroller Warwick's Decision Regarding Payment of Railway Deficits Works Hardship.

(By Associated Press.)
WASHINGTON, Oct. 11.—The railroads of the country appealed today to President Wilson against the ruling of the Comptroller of the Treasury that the Treasury Department might withhold from the roads all further payments due them under the guarantee provisions of the transportation act until final accounting had been completed by the carriers.

Comptroller Warwick ruled that claims of railroads for income deficits during the period between March 1 and September 30, certified for payment by the Interstate Commerce Commission for less than the total deficit for the entire period, could not be made under the terms of the law. The comptroller took the position that the income guarantees to the roads must be paid in full and not be piecemeal.

Alfred P. Thom, general counsel of the Association of Railway Executives, explained that the roads had appealed to the President because they believed the comptroller's ruling was an erroneous construction of the law, which, he said, clearly intended that partial payments should be made when the various amounts had been held. The comptroller's decision, he added, would work an undue hardship on the railroads by postponing the guaranty payments to them until the final returns for each of the six months had been calculated.

SCHOOLS TEACH THRIFT

Miss Mary G. Shotwell Prepares Survey—Eleven Thousand Receive Instruction.

Summary of the work done and in outline of the thrift education campaign in the summer schools of Virginia, just completed, have been sent to Harris Hart, State superintendent of education, and to all presidents, summer school directors and thrift instructors in schools of the Fifth Federal Reserve District. Miss Mary G. Shotwell, director of the educational division of the American organization of this district, prepared the survey.

Seventy-five thrift lessons were given in county schools, in addition to work done in the summer schools. To the 279 teachers in the State schools who received thrift instruction should be added 3,050 in the county schools and teachers' institutes, making a grand total of more than 11,000.

SO WEAK LIFE A MISERY

Florida Lady Would Have Aching Pains In Side, Back and Shoulders—Took Cardui and Soon Noted Great Improvement.

Odessa, Fla.—"About two years ago," writes Mrs. J. D. Powell, of this place, "I took several bottles of Cardui as a tonic, for I was run-down in health. In fact, I could hardly do anything at all; could only drag around and couldn't do my work."

"Life was miserable to me, and I knew I must have some relief, as I was so very weak. I would suffer from aching pains in my right side, back and shoulders. I would have such terrible nervous spells, which would come on me and I would fall down wherever I was standing."

"My friends recommended that I try Cardui. . . I began using it and soon saw and felt a great improvement. . . My appetite became good. . . I could rest well at night, and I got so I could do all my housework in a short time. . . I praise Cardui to all my friends."

If you suffer from ailments peculiar to women, it would be well for you to give Cardui a trial. For more than forty years it has proven beneficial to thousands of suffering women, and what it has done for others it should do for you.

Take Cardui, the Woman's Tonic, today. Your druggist keeps it.—Adv.
